Fillers from £275.00

We are delighted to present our brand new SAVING FACES spa. Rachael our beauty therapist offers a range of massage and facial treatments to relax and unwind you after your dental treatment.

Not that you need to have been to the dentist to see Rachael and experience her soothing treatments!

She uses the very latest in facial aesthetic technology called the "Accelafuze" machine. This is from America, the first of its type in Merseyside and offers a combination of microdermabrasion, nutrient infusion into the skin, followed by collagen stimulating light therapy. Accelafuze may also be used together with gentle peels to give a fresh more youthful appearance. All in 1 visit!

We hope you enjoy our Spa room.

Facials: Accelafuze

Accelafuze is an exciting new treatment which reduces the signs of ageing. The Accelafuze is the latest in facial rejuvenation. The scientifically designed infusion solutions are a brand new concept in skin ageing treatments; enhancing all skin types and conditions to provide a positive rejuvenating effect.

The treatment starts with gentle and effective removal of the outer layer of the skin using microdermabrasion, then an infusion is chosen for a personalised treatment.

The final element is the use of high intensity LED light therapy to promote collagen.

The skin will be left looking toned and fresh and a smoother healthier complexion will become apparent in the following days after the treatment.

1 hour treatment £90.00

Taster Accelafuze treatment 30mins £45.00
